

DO'S AND DON'T FOR BHIM QR MERCHANT

DO's

DONT's

Verify the QR code at the time of delivery to confirm it is operational and VPA is as displayed in the QR sticker with @cnrb handler.

BHIM QR are provided to receive the amount only and cannot be used to debit the merchant account.

Test transaction should be done immediately on receipt of QR and at frequent intervals to ensure that amount is crediting and transaction notification is received.

UPI pin of merchant is never required for receiving the money from customer.

QR stickers should be displayed on prominent places inside the premises to ensure that QR is not tampered during the off hours of business and easy to scan as well.

Get the QR Codes Standee and sticker from the Bank only(reliable source) to safeguard the security features of it and avoid tampering.
